

Do you require a contract?

No!

Royal Shredding does not require clients to enter into contracts that establish a required period of tenure without cancellation options, nor do we insist on regularly, structured pick-up programs that our clients can not alter. Royal Shredding has available an agreement for clients that locks in Royal Shredding's commitments and rates, and only requires in return, common sense from the client. For your protection, this agreement is designed to comply with the best practices as outlined by the Information and Privacy Commissioner of Ontario. It also provides our clients the opportunity to change, or cancel any part of our service schedule without penalty at your discretion.

Royal Shredding believes we are in business to suit our customers needs - not ours.
